SCIENCE AND TECHNOLOGY
SOUTHERN JOINT BRANCH

Aluminium Sports Yachts - Design & Construction

by

Mr. James Hillard
Palmer Johnson

From humble beginnings as a wooden fishing boat builder in the Great Lakes of America more than ninety years ago, Palmer Johnson has emerged as one of the world's leading builders of luxury high performance yachts.

Following Palmer Johnson's first year of UK production, this presentation will discuss the series build of their 52m aluminium sports yacht, the PJ170, and in particular the design, engineering and manufacturing processes used throughout.

will be read at

**Southampton Solent University, Rooms SM009/010,
Sir James Matthew Building, Solent Conference Centre,
Above Bar, Southampton, SO14 7NN**

on

Wednesday 21st October 2009

at

14:30 hours
